

Softcare Outdoor Hot Tub Wash 500 ml

This is a new, ecological cleaning agent for outdoor hot tubs and bath barrels. Suitable for washing both the inside and the outside of the tub. It's also suitable for washing the tub's railings and stairs. Effectively removes lotion and sunscreen residue, soot, and algae.

Directions: Spray on the walls and bottom of the tub. Allow it to work for 20 to 40 minutes. Scrub with a brush and rinse off. Cleaning the water jacket and piping of the heating stove: Plug the bottom hole, pour in 100 ml of detergent, add warm water until full and allow it to work for 1 to 2 hours. Rinse off. The cleaning agent is suitable for temperatures above 2°C.

Contains: Vegetable soap <5%, non-ionic surfactants <5%, sodium carbonate <5%.

Volume: 500ml

EAN: 6416977713630
