

Softcare Oven and grill cleaner 500 ml

An effective, ecologically innovative cleaning compound for grills and ovens. Also removes stubborn grease without damaging surfaces. Not suitable for aluminium or galvanised surfaces.

Use: spray the compound on the oven/grill and allow the cleaner to act for 5–15 minutes. After spraying the cleaner on to the surface, parchment paper can be laid over the foam to prevent the cleaning compound from dripping off. Use the cleaner only on a cold oven/grill.

Ingredients: plant-based soap, ethanol, surfactants, organic solvents, water.

Volume: 500ml

EAN: 6416977713449
